

An Intro to Data Practices Policies & Procedures

Need a primer or a refresh about your responsibilities related to data practices in state or local government? Then this workshop is for you!

The workshop offers:

- Background on a government entity's legal duties about government data
- Advice on the legal requirements related to appropriate access to not public data and data breach investigations and notifications
- Help creating or updating customized data practices policies and procedures required by law
- An opportunity to apply your knowledge in hands-on exercises
